Closure compatibility

Wardrum

Warboy

Warlord

General Description

The cap overseal has been designed to provide an effective means of closure tamper protection. When attached over the closure access to the closure is prevented. The overseal has to be broken to allow access to the closure.

The composition of the overseal is chemically resistant and compatible with a wide range of chemical solutions. For specific advice on chemical compatibility call the Francis Ward sales team.

Using the overseal - overleaf

Using the Overseal

Sealing the drum

Place overseal around cap

Place the overseal around the cap ensuring that the cap is completely encased within the overseal.

Close overseal

Pull the two halves of the overseal together and click the overseal shut. Ensure the arrow shaped catch is fully engaged.

Unsealing the drum

Pull unlocking tab

Pull back the protruding tab to break the seal.

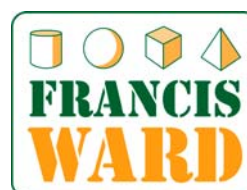

Open overseal

Open the overseal. Remove and discard the overseal. Discard in accordance with local waste disposal regulations.
